A) Read the text and say whether the sentences are or false. **5pts**

In the world today most people agree that separate nations are not enough. If nations are always kept separate, some will become enemies, and they will fight. The result will be wars. This has happened all through history. Nowadays we are trying to change that. Men now say that a war between two countries is important not only to those countries. It is important to all countries. All countries should work with one another to try to stop wars. Also some countries are rich and others poor. Rich countries try to help poor countries. But this can be done only if men from the rich and poor countries meet together to make plans. Nowadays, this is being done by the United Nations Organization- U. N. O- and there is special United Nations flag.

The flag consists of a white map of the world on a light blue background. It is unusual map, because its center is the North Pole. With this center, most of the continents of the world can be shown inside the circle. Africa is at the bottom and to the right. South America is at the bottom and to the left. The design outside the circle stands for two olive branches. The olive branch has been a sign of peace since the time of the ancient Greeks. The two olive branches in the United Nations Organizations flag mean peace for all the world.
